Interested in integrating tobacco cessation treatment into your clinic or health care system?

Helping Your Patients Quit: A Systems Approach to Tobacco Cessation

Available at these dates and times:

Thursday, January 8th 11:00 a.m. to 12:00 p.m. ET

Thursday, January 22nd 1:00 to 2:00 p.m. ET

Thursday, February 5th 12:00 to 1:00 p.m. ET

Thursday, February 19th 2:00 to 3:00 p.m. ET

Studies show that most patients expect their provider to address tobacco use. In cases where providers asked about tobacco use, patients had a better impression of the quality of their overall health care treatment. The goal of this webinar is to introduce health care providers and administrators to tools and resources for developing or refining systems approaches to tobacco cessation treatment and referral in the clinic or hospital setting.

- Know what services are provided by the Maryland Tobacco Quitline and how to refer a patient
- Participate in systems change activities to institutionalize brief tobacco intervention
- Leverage existing community and other resources to help your patients stop using tobacco

This webinar offered by the Center for Tobacco Prevention and Control is FREE for health care providers.
