

IN THE MATTER OF

SRIDHAR CHATRATHI, M.D., P.C.

Respondent

BEFORE THE

MARYLAND STATE

BOARD OF PHYSICIANS

Case Number: 2227-0010 B

PRE-NOTICE CONSENT ORDER

On July 22, 2026, Disciplinary Panel B (“Panel B”) of the Maryland State Board of Physicians (the “Board”) voted to impose a civil penalty on **SRIDHAR CHATRATHI, M.D., P.C.** (the “Respondent”) for the Respondent’s failure to comply with provisions of the Maryland Radiation Therapy, Radiography, Nuclear Medicine Technology, and Radiology Assistance Act (the “Act”), Md. Code Ann., Health Occupations (“Health Occ.”) §§ 14-5B-01 *et seq.* (2021 Repl. Vol. & 2025 Supp.).

The pertinent provisions of the Act are as follows:

§ 14-5B-18.1. Employment of individuals without license prohibited.

...

- (b) Except as otherwise provided in this subtitle, an employer may not employ an individual practicing radiation therapy, radiography, nuclear medicine technology, or radiology assistance without a license.
- (c) A disciplinary panel may impose a civil penalty of up to \$5,000 for employing an individual without a license under this section.

Prior to the issuance of a Notice of Intent to Impose Civil Penalty, the Respondent agreed to enter into the following Pre-Notice Consent Order, consisting of Findings of Fact, Conclusions of Law, Order, and Consent.

FINDINGS OF FACT

Panel B makes the following Findings of Fact:

1. The Respondent is a medical practice located in Prince George's County, Maryland.
2. On April 13, 2013, the Respondent engaged a Nuclear Medicine Technologist (the "Nuclear Medicine Technologist") to provide nuclear medicine technology services at the Respondent's practice.¹
3. On April 30, 2021, the Nuclear Medicine Technologist's Maryland license expired.
4. On April 10, 2026, the Board reinstated the Nuclear Medicine Technologist's Maryland license.
5. The Board initiated an investigation upon receiving information that the Nuclear Medicine Technologist had been practicing nuclear medicine technology after the expiration of his Maryland license. During the investigation, the Nuclear Medicine Technologist acknowledged that his duties at the Respondent's practice included, among other things, ordering radiopharmaceuticals, initiating intravenous lines and injecting radioisotopes, scanning patients, administering pharmacologic stress agents, monitoring patients during nuclear stress tests, and processing nuclear medicine images.

¹ To ensure privacy, the names of individuals involved in this case are not disclosed in this document. The Respondent may obtain the identity of the referenced individual by contacting the Administrative Prosecutor.

6. The Board's investigation revealed that the Respondent continued to engage and utilize the Nuclear Medicine Technologist to provide nuclear medicine technology services from approximately May 1, 2021, until approximately April 9, 2026, while his Maryland license was expired. The Respondent's records identified patients for whom the Nuclear Medicine Technologist provided nuclear medicine technology services during that period.

CONCLUSIONS OF LAW

Based on the foregoing Findings of Fact, Panel B concludes as a matter of law that the Respondent employed an individual to practice nuclear medicine technology without a license, in violation of Health Occ. § 14-5B-18.1(b). Pursuant to Health Occ. § 14-5B-18.1(c), Panel B may impose a civil penalty for that violation.
