CONSENT ORDER

PROCEDURAL BACKGROUND

The Maryland Board of Physicians (the “Maryland Board”) received information that Masood A. Siddiqui, M.D., (the “Respondent”), License Number H0069528, was disciplined by the Colorado Department of Regulatory Agencies (the “Colorado Board”) In a Letter of Admonition dated May 28, 2026, the Colorado Board disciplined the Respondent by admonishing him.

Based on the above referenced Colorado sanction, the Maryland Board has grounds to charge the Respondent with violating the following provisions of the Maryland Medical Practice Act (the “Act”), under H. O. § 14-404(a):

- (a) Subject to the hearing provisions of § 14-405 of this subtitle, a disciplinary panel, on the affirmative vote of a majority of the quorum of the disciplinary panel, may reprimand any licensee, place any licensee on probation, or suspend or revoke a license if the licensee:
 - (21) Is disciplined by a licensing or disciplinary authority or convicted or disciplined by a court of any state or country or disciplined by any branch of the United States uniformed services or the Veteran’s Administration for an act that would be grounds for disciplinary action under this section,

Disciplinary Panel A (“Panel A”) has determined that the acts for which the Respondent was disciplined in Colorado would be grounds for disciplinary action under

H.O. § 14-404(a). The grounds for disciplinary action under H.O. § 14-404(a) are as follows:

(3) Is guilty of:

(ii) Unprofessional conduct in the practice of medicine[.]

Based on the action taken by the Colorado Board, the Respondent agrees to enter into this Consent Order with Panel A, consisting of Procedural Background, Findings of Fact, Conclusions of Law, Order and Consent.

FINDINGS OF FACT

Panel A makes the following findings of fact:

1. At all times relevant hereto, the Respondent was a physician licensed to practice osteopathic medicine in the State of Maryland. The Respondent was initially licensed in Maryland on or about July 6, 2009.
2. In February 2020, a patient ("Patient A") was admitted to Hospital A due to shortness of breath and respiratory distress. A head CT Scan of the patient was ordered after they fell and hit their head, and the image was interpreted by a resident and the Respondent, who was the resident's supervising physician.
3. Their interpretation of the CT Scan was that there was "no evidence of acute intracranial hemorrhage or mass effect". However, the patient actually had a left subdural hematoma, which neither the resident nor the Respondent noted and was only revealed two days later through a separate CT scan interpreted by a different physician.

4. On March 27, 2022, the Respondent did an interpretation of a cervical spine CT scan for a patient ("Patient B") in his role as a diagnostic radiologist providing telemedicine services to Hospital B. Patient B had presented to the emergency room with "complaints of right-side chest pain, right shoulder pain, and neck pain after a fall."
5. The Respondent interpreted Patient B's CT scan as showing "no acute fracture". However, the CT scan did show fractures of the patient's "right C5, C6 and c7 facets", which the Respondent did not notice. Furthermore, a later MRI showed "subacute fractures of the right C5, C6, and C7 facets with C5-C6 facet dislocation" and "post traumatic anterior subluxation."
6. After consideration of the information, the Colorado Board found that the Respondent had "committed unprofessional conduct in violation of section 12-240-121(1)(j) of the Colorado Revised Statutes." This was due to the two CT scans' interpretations falling below generally accepted standards, with the scan of Patient A indicating "a small left frontal subdural hematoma without mass effect or midline shift" that the Respondent did not note, and the scan for Patient B showing "cervical spine fractures" that the Respondent did not report.
7. In relation to Patient B, in a Final Order dated March 19, 2025, the Wisconsin Medical Examining Board disciplined the Respondent by requiring him to complete three (3) hours of education on the topic of the appearance of neck trauma on imaging.

8. By Letter dated May 28, 2026, the Colorado Board disciplined the Respondent by admonishing him for his conduct.

A copy of the Colorado Letter of Admonition is attached hereto.

CONCLUSIONS OF LAW

Based on the foregoing Findings of Fact, Panel A concludes as a matter of law that the Respondent is subject to discipline under Health Occ. §14-404(a)(21) for the disciplinary action taken by the Colorado Board against the Respondent for an act or acts that would be grounds for disciplinary action under Health Occ. §14-404(a)(3)(ii).

ORDER

It is, thus, by Panel A, hereby:

Re: License Number: CDR.0002058
Case Numbers: 2023-1453-B and 2023-9427-B

Dear Dr. Siddiqui,

The Colorado Medical Board has concluded its inquiry into the aforementioned matter. It was the Panel's decision not to commence with formal proceedings against your professional license. However, the Panel did determine disciplinary action in the form of this letter of admonition is warranted.

As you recall, in 2020, Patient A sustained a fall with head trauma. A computed tomography ("CT") scan without contrast of Patient A's head was performed. As a diagnostic radiologist, you read the CT scan and reported no evidence of acute intracranial hemorrhage or mass effect. In 2022, Patient B underwent CT scans of the head, cervical spine, and chest without contrast. You read the scans and found no acute cervical fractures and degenerative grade 1 anterolisthesis C6 on C7.

After consideration of the information in this case, the Panel finds that you committed unprofessional conduct in violation of section 12-240-121(1)(j) of the Colorado Revised Statutes. Specifically, your interpretation of the two CT scans fell below generally accepted standards. For Patient A's scan, the CT scan indicated a small left frontal subdural hematoma without mass effect or midline shift, which was a subtle finding you did not note. For Patient B, who had unusual anatomy, the scan showed cervical spine fractures, which you did not report.

By this letter, the Board takes the formal disciplinary action of admonishing you for the conduct specified above and warns you that repetition of such practice may lead to imposition of more severe disciplinary action. This letter is an open public record and a reportable action to individuals or entities requesting disciplinary information. The Board strongly encourages you to review and understand the Medical Practice Act requirements and obligations for the practice of medicine in Colorado.

In accordance with section 12-20-404(4)(b), the Board advised you that you have the right to make a written request that the Board initiate formal disciplinary proceedings in order to adjudicate the conduct or acts upon which this letter is based. Pursuant to agreement with the Panel, you have agreed to waive the right provided by section 12-20-404(4)(b), C.R.S., to contest this letter of admonition.

A Letter of Admonition, when accepted, becomes a permanent, public portion of your record. It is not, however, a restriction on your practice as a professional physician.
