ORDER FOR SUMMARY SUSPENSION OF LICENSE TO PRACTICE MEDICINE

Disciplinary Panel A ("Panel A") of the Maryland State Board of Physicians (the "Board") hereby **SUMMARILY SUSPENDS** the license to practice medicine of **ADAM CHRISTOPHER LORENZO, D.O.,** (the "Respondent"), License Number H0101653, in the State of Maryland.

Panel A takes such action pursuant to its authority under Md. Code Ann., State Gov't §10-226(c)(2) and Md. Code Regs. ("COMAR") 10.32.02.08B(7), concluding that the public health, safety, or welfare imperatively requires emergency action.

INVESTIGATIVE FINDINGS

Based on information received by, and made known to Panel A, and the investigatory information obtained by, received by, and made known to and available to Panel A, including, but not limited to, the instances described below, Panel A has reason to believe that the following facts are true:[1]

[1] The statements regarding the Respondent's conduct are intended to provide the Respondent with reasonable notice of the basis of Panel A's action. They are not intended as, and do not necessarily represent, a complete description of the evidence, either documentary or testimonial, to be offered against the Respondent in connection with this matter.

Introduction

Panel A is summarily suspending the Respondent's license to practice medicine after a Board investigation revealed that he has a health condition that affects his ability to practice medicine safely.

Background/Licensing Information

1. The Respondent was originally issued a license to practice medicine in Maryland on September 6, 2024, under License Number H0101653. The Respondent's license expires on September 30, 2028, subject to renewal.

2. At all relevant times, the Respondent was employed as a clinical fellow in the obstetric anesthesiology program at a health care facility (the "Facility") in Maryland.

3. The Respondent voluntarily withdrew from the fellowship program at the Facility on March 9, 2026.

The Report

4. On or about March 10, 2026, the Board received a Mandated 10-Day Report from the Facility (the "Report") stating that the Clinical Competency Committee had concerns about the Respondent's clinical performance.

5. The Board conducted an investigation into the Report and determined, among other things, that the Respondent was unsafe to practice medicine.

a complete description of the evidence, either documentary or testimonial, to be offered against the Respondent in connection with this matter.

6. On April 28, 2026, the Board notified the Respondent it had received the Report and initiated a full investigation. The Board issued subpoenas for the Respondent's medical records.

7. On September 9, 2026, the Board notified the Respondent that the investigation revealed a possible health condition affecting his ability to practice medicine safely.[2] The Board directed the Respondent to appear on September 21, 2026, for an intake evaluation[3] with the Maryland Professional Rehabilitation Program ("MPRP").[4]

8. Based on the intake evaluation, MPRP staff had significant concerns about the Respondent's ability to practice medicine safely. Due to these concerns, MPRP staff directed the Respondent to sign a voluntary cessation agreement and schedule an evaluation.

9. On October 16, 2026, the Respondent signed a Voluntary Practice Cessation Agreement whereby he agreed to cease the practice of medicine immediately and until the MPRP informed him in writing that he may return.

[2] For confidentiality reasons, the specific information in the Respondent's treatment records and evaluation will not be disclosed in this document. This information will be disclosed to the Respondent upon request. The Panel reviewed this information prior to the issuance of this Order for Summary Suspension of License to Practice Medicine.

[3] The Maryland Medical Practice Act (the "Act"), Md. Code Ann., Health Occupations § 14-402(a), authorizes the Board to direct any licensed physician regulated by the Board…to submit to an appropriate evaluation.

[4] For privacy reasons, the specific information contained in the evaluation will not be disclosed in this document. This information will be disclosed to the Respondent upon request. The Panel reviewed this information prior to the issuance of this Order for Summary Suspension of License to Practice Medicine.

10. On October 30, 2026, the Respondent presented for the evaluation. The evaluator opined that, due to a medical condition, the Respondent "is not presently fit for duty in the role of medical practice."

CONCLUSION OF LAW

Based upon the foregoing Investigative Findings, Panel A of the Board concludes that the public health, safety, or welfare imperatively requires emergency action, and that pursuant to State Gov't § 10-226(c)(2) and COMAR 10.32.02.08B(7), the Respondent's license is summarily suspended.
