On June 10, 2026, Panel A was convened as a Disciplinary Committee for Case Resolution (“DCCR”) in this matter. Based on negotiations occurring as a result of this DCCR, the Respondent agreed to enter into this Consent Order, consisting of Findings of Fact, Conclusions of Law, Order, and Consent.

FINDINGS OF FACT

Panel A finds:

1. At all times relevant, the Applicant is not and has never been licensed to practice medicine in the State of Maryland.

2. At the time the Applicant filed his Application for Initial Medical Licensure in Maryland on October 27, 2025, the Applicant was not licensed to practice medicine in any other state in the United States.

3. On or about October 27, 2025, the Board received the Applicant’s Application for Initial Medical Licensure (the “Application”).

4. In the Application the Applicant reported that he “successfully completed nearly two years [of postgraduate training in emergency medicine] at a hospital (the

“Hospital”)¹ in...Pennsylvania.” The Applicant further reported that he resigned from the training in May of 2025.

5. Question 4C on the Application asked:

During your years of postgraduate training, was any action taken against you but any training program, hospital, medical board, licensing authority, or court? Such actions include but are not limited to investigations, limitations of privileges or special conditions, requirements imposed for academic incompetence, disciplinary actions, probationary actions, etc. If “Yes,” please provide an explanation.

6. The Applicant answered, “No” to question 4C.

7. As part of the application process, the Board requested relevant records, including but not limited to, records regarding the Applicant’s prior medical education and training.²

8. Hospital records received by the Board stated, among other things, the following:

- a. The Applicant was an Emergency Medicine Resident at the Hospital from July 1, 2023, to May 16, 2025, when he resigned from the program.
- b. On December 19, 2023, the Hospital took disciplinary action against the Applicant for “interpersonal communication skills, patient care/clinical judgement, and professionalism” reasons.
- c. The Hospital’s remedial/corrective action plan for the Applicant included clinical and professional coaching which included bi-monthly in-person meetings with faculty, mandatory administrative shifts to complete untimely administrative tasks and monthly reviews of any adverse comments related to patient care milestones including multitasking, diagnosis, reassessment, and professionalism.

¹ For confidentiality and privacy reasons, the name of the hospital referenced herein will not be disclosed in this Consent Order.

² Prior to this request, the Applicant provided the Board a signed release for any information necessary to process his Application.

- d. Between January 8, 2023, and January 7, 2025, Hospital personnel documented the Applicant's progress with his remedial/corrective action plan. Among other things, Hospital personnel identified ongoing concerns regarding the Applicant's medical care. These concerns included, but were not limited to: lack of knowledge, clinical errors, medical documentation errors, inordinate delays, poor communication skills with patients, disrespect towards other health care professionals, and inability to incorporate feedback.
- e. On or about November 26, 2024, a Hospital review committee determined that the Applicant had not met his remediation requirements and the Hospital would, among other things, place the Applicant on formal resident probation to the Hospital disciplinary committee at his mid-year evaluation.
