ORDER TERMINATING SUSPENSION AND IMPOSING PROBATION

On January 5, 2018, Reginald Biggs, M.D. entered into a consent order with Disciplinary Panel A ("Panel A") of the Maryland State Board of Physicians (the "Board") based on his failure to meet the standards for appropriate medical care (the "standard of care"). Under the terms of the Consent Order, Dr. Biggs was reprimanded and placed on probation for one year with probationary conditions that included a chart/peer review. An unsatisfactory chart and/or peer review would be considered a violation of the 2018 Consent Order.

On August 1, 2019, after an unsatisfactory peer review, Dr. Biggs was charged with violating the 2018 Consent Order. On February 11, 2020, Dr. Biggs entered into a second consent order with Panel A (the "2020 Consent Order"). The 2020 Consent Order reprimanded Dr. Biggs and suspended his license, ordering him to enroll in and undergo a complete and comprehensive evaluation by the Clinical Competence Assessment Program administered by the Center for Personalized Education for Professionals (CPEP). The 2020 Consent Order further required that Dr. Biggs enroll in, and fully and timely cooperate and comply with educational intervention recommended by CPEP. Following the CPEP evaluation, CPEP was to produce a written report to Panel A and Dr. Biggs detailing the results of the evaluation and its recommendation about whether Dr. Biggs's performance was satisfactory or unsatisfactory, and whether he is clinically competent and safe to return to practice. Upon the receipt of the written

reports, Dr. Biggs was permitted to petition Panel A to terminate his suspension. Panel A is required to consider his disciplinary history and the CPEP report and determine whether Dr. Biggs is clinically competent and safe to return to the practice of medicine. If deemed safe to practice, the Panel may terminate his suspension and impose terms and conditions deemed appropriate, including any educational intervention recommended by CPEP, probation, a requirement to work in a structured environment, and other terms and conditions, as appropriate.

On April 29, 2021, Dr. Biggs petitioned to lift his suspension. The State filed a response to the Petition on May 11, 2021 that recommended terminating the suspension, but imposing significant probationary conditions. Dr. Biggs filed a reply on August 6, 2021. In addition to these documents, the Panel also considered an Assessment Report from CPEP received March 26, 2021 and an Educational Intervention Program Education Plan developed May 2021. CPEP opined that Dr. Biggs should review patient charts with a preceptor and engage in self-study, it noted variable clinical judgments and reasoning for adult patients and inadequate in children. The assessment report concluded that Dr. Biggs requires a "structured Educational Intervention . . . to address [his] educational needs while [he] continue[s] to practice." On August 11, 2021, Dr. Biggs appeared before Panel A for consideration of his Petition.

Panel A finds that Dr. Biggs has complied with the terms of the 2020 Consent Order and that if ordered to comply with probationary terms and conditions providing monitoring and education recommended by the CPEP program Dr. Biggs is safe to return to the practice of medicine. It is, thus, by Panel A, hereby

Panel A will grant the petition to terminate the probation if Dr. Biggs has complied with all of the probationary terms and conditions, CPEP has deemed Dr. Biggs safe to practice without supervision, and there are no pending complaints related to the charges; and it is further

If there is a genuine dispute as to a material fact, the hearing shall be before an Administrative Law Judge of the Office of Administrative Hearings followed by the exception process before a disciplinary panel and, if there is no genuine dispute as to a material fact, Dr. Biggs shall be given a show cause hearing before Panel A; and it is further
