CONSENT ORDER

PROCEDURAL BACKGROUND

The Maryland Board of Physicians (the "Maryland Board") received information that Brent Steadman, M.D., (the "Respondent") License Number D84287, was disciplined by the Colorado Medical Board (the "Colorado Board"). In a letter dated December 2, 2020, the Colorado Board disciplined the Respondent by admonishment.

Based on the above referenced Colorado Board sanction, the Maryland Board has grounds to charge the Respondent with violating the following provisions of the Maryland Medical Practice Act (the "Act"), under H. O. § 14-404(a):

- (a) Subject to the hearing provisions of § 14-405 of this subtitle, a disciplinary panel, on the affirmative vote of a majority of the quorum of the disciplinary panel, may reprimand any licensee, place any licensee on probation, or suspend or revoke a license if the licensee:
 - (21) Is disciplined by a licensing or disciplinary authority or convicted or disciplined by a court of any state or country or disciplined by any branch of the United States uniformed services or the Veteran's Administration for an act that would be grounds for disciplinary action under this section,

Disciplinary Panel A ("Panel A") has determined that the acts for which the Respondent was disciplined in Colorado would be grounds for disciplinary action under

H.O. § 14-404(a). The grounds for disciplinary action under H.O. § 14-404(a) are as follows:

(22) Fails to meet appropriate standards as determined by appropriate peer review for the delivery of quality, medical and surgical care performed in an outpatient surgical facility, office, hospital, or any other location in this state

(40) Fails to keep adequate medical records as determined by appropriate peer review.

Based on the action taken by the Colorado Board, the Respondent agrees to enter into this Consent Order with Panel A, consisting of Procedural Background, Findings of Fact, Conclusions of Law, Order and Consent.

FINDINGS OF FACT

Panel A makes the following findings of fact:

1. At all times relevant hereto, the Respondent was a physician licensed to practice radiology in the State of Maryland. The Respondent was initially licensed in Maryland on or about October 4, 2017.

2. In its December 2, 2020 admonishment, the Colorado Board found that during the performance of an intravascular ultrasound procedure the patient's right ventricle was perforated by the Benson wire used during the procedure which the Respondent did not recognize and did not describe in his post procedure note or communicate this complication to medical staff at the second medical facility to which the patient was transferred.

A copy of the Colorado Board admonishment is attached here to.

CONCLUSIONS OF LAW

Based on the foregoing Findings of Fact, Panel A concludes as a matter of law that the Respondent is subject to discipline under Health Occ. § 14-404(a)(21) for the disciplinary action taken by the Colorado Board against the Respondent for an act or acts that would be grounds for disciplinary action under Health Occ. §14-404(a)(22) and (40).

ORDER

It is, thus, by Panel A, hereby:

ORDERED that the Respondent be and is hereby **REPRIMANDED**; and it is further

ORDERED that the effective date of the Consent Order is the date the Consent Order is signed by the Executive Director of the Board or her designee, and it is further

ORDERED that this Consent Order is a public document. *See* Health Occ. §§1-607, 14-411.1(b)(2) and Gen. Prov. §4-333(b)(6).

Re: License Number: DR. 59163
Case Number: 2020-3175-A

Dear Dr. Steadman,

The Colorado Medical Board has concluded its inquiry into the aforementioned matter. It was the Panel's decision not to commence with formal proceedings against your professional license. However, the Panel did determine disciplinary action in the form of this letter of admonition is warranted.

As you recall, you treated Patient 1, a 65-year-old female, for symptomatic lower extremity edema. A CT of the abdomen and pelvis revealed inferior vena cava ("IVC")/iliac vein calcification, raising the possibility of chronic IVC thrombus. Given this information, on or about September 14, 2018, you performed an intravascular ultrasound ("IVUS") procedure to evaluate the IVC and iliac veins. At the end of the procedure, Patient 1 developed chest pain and hypotension. Patient 1 was transferred to the emergency department, where an ECHO and chest CT showed large pericardial effusion/hemopericardium. Based on the combination of this finding, Patient 1 was transferred to another medical facility where she underwent median-sternotomy and evacuation of hemopericardium. During the surgery, a five-millimeter puncture in the right ventricle was found.

After reviewing the information in this matter, the Panel found that your actions constitute unprofessional conduct, in violation of sections 12-240-121(1)(j) and (v) of the Colorado Revised Statutes. Specifically, during the IVUS procedure Patient 1's right ventricle was perforated by the Benston wire used during the procedure. This complication is reflective of poor technique and fails to meet generally accepted standards of medical practice. In addition, you did not recognize this complication, did not describe the complication in your post procedure note, and did not communicate this complication to medical staff at the second medical facility to which Patient 1 was transferred. Finally, your description of when the IVUS concluded and when Patient 1 complained of chest and abdominal pain are inconsistently described in the medical record.

By this letter, the Board takes the formal disciplinary action of admonishing you for the conduct specified above, and warns you that repetition of such practice may lead to imposition of more severe disciplinary action. This letter is an open public record and a reportable action to individuals or entities requesting disciplinary information. The Board strongly encourages you to review and understand the Medical Practice Act requirements and obligations for the practice of medicine in Colorado.

In accordance with 12-20-404(4)(b), the Board advises you that you have the right to make a written request that the Board initiate formal disciplinary proceedings in order to adjudicate the conduct or acts upon which this letter is based. You must make your written request within twenty (20) days after receipt of this letter and address your request to Paula E. Martinez, Program Director, at the email

address listed below. If you make a timely request, the Board will deem this letter of admonition vacated and may proceed with disciplinary and/or injunctive proceedings in accordance with 12-20-404(4)(b)(II), C.R.S., and applicable rules.

A Letter of Admonition, when accepted, becomes a permanent, public portion of your record. It is not, however, a restriction on your practice as a professional physician.
