ORDER TERMINATING PROBATION

On February 4, 2011, the Medical Board of California (the “California Board”) revoked the medical license of Craig Wilder, M.D., the revocation was stayed and Dr. Wilder was placed on probation for four years with terms and conditions. On April 30, 2012, based upon the order in California, the Maryland State Board of Physicians (the “Board”) and Dr. Wilder entered into a Consent Order that revoked Dr. Wilder’s license to practice medicine, the revocation was immediately stayed, and Dr. Wilder’s license was placed on probation until such time as his license was activated as full and unrestricted by the California Board. The Consent Order was based upon § 14-404(a)(21) of the Health Occupations Article, which authorizes the Board to discipline a licensee if the licensee is disciplined by another licensing or disciplinary authority for an act that would be grounds under § 14-404 of the Health Occupations Article. On October 24, 2013, the California Board again revoked Dr. Wilder’s license, immediately stayed the revocation, and ordered that Dr. Wilder be placed on probation for one additional year, and to remain on probation for a total of five years, until February 3, 2016. On June 23, 2015, the Maryland State Board of Physicians and Dr. Wilder entered into a Consent Order in which Dr. Wilder’s application for reinstatement of his medical license was

granted with the requirement that Dr. Wilder remain on probation until the Medical Board of California terminated his probation. On February 4, 2016, Dr. Wilder satisfied the terms of the February 4, 2011, order, and the October 24, 2013, order, and his probation was thus terminated in California. Thus, it is hereby

ORDERED that the probations imposed by the April 30, 2012 and the June 23, 2015 Maryland Consent Orders are **TERMINATED**; and it is further

ORDERED that this is a Public Document.
